Philadelphia, PA

2020 Food & Nutrition Conference & Expo

October 17-20
Indianapolis, IN

Tell Us Your Issue . . .

We care about the concerns of Academy members and want to hear from you. There are four easy ways to submit your issues:

- E-mail: issuesmgmt@eatright.org
- Fax: 312/899-4790
- Phone: 800/877-1600 ext. 5000
- Contact your delegate.

You will receive immediate confirmation that your message has been received and action will be taken within 2 months.

Deadline for submitting material for the People & Events section is the first of the month, 3 months before the date of the issue (eg, May 1 for the August issue). Publication of an educational event is not an endorsement by the Academy of the event or sponsor. Send material to journal@eatright.org

Art of Dietetics

Images featured in "The Art of Dietetics" are available for educational use at www.jandonline.org/content/photocontestgallery. Want to make your own Art of Dietetics contribution? Submission details are available at www.jandonline.org/artofdietetics.

ANNOUNCEMENTS

11th Asia Pacific Conference on Clinical Nutrition, September 19-22, 2019, Nanjing, China

The Chinese Nutrition Society will host the 11th Asia Pacific Conference on Clinical Nutrition (APCCN) on September 19-22, 2019, in Nanjing, China. The Conference theme will be "Nutrition Research to Clinical Practice." APCCN is a biennial international nutrition congress with over 2,000 participants, which will be aimed at presenting the latest development of nutrition science and promoting academic exchange among nutrition researchers across the world. For more information, visit www.apccn2019.org.

International Congress of Dietetics, September 15-18, 2020

Every 4 years, the International Confederation of Dietetic Associations holds an International Congress of Dietetics to share knowledge and to learn with colleagues from around the world. The next International Congress of Dietetics will be held on September 15-18, 2020, in Cape Town, South Africa; this will be the first ICDA congress to be held on the African continent and promises to offer an unforgettable experience. Submissions for abstracts are now open, and more information can be found at www.icda2020.com.

EDUCATIONAL OPPORTUNITIES

Free Professional Development Resources for Academy Members

Select from a variety of eight free and member-preferred priced resources to best fit your professional development

needs with Distance Learning at your own pace and convenience. The Center for Professional Development also offers a number of online certificate of training programs and webinars as well as group and self-study options. Visit www.eatrightpro.org/resources/career/professional-development.

ERRATUM

In "Is Nutrient Content and Other Label Information for Prescription Prenatal Supplements Different from Nonprescription Products?" from the September 2017 issue of the *Journal* (117(9):1429-1436), an error appears in Table 1, which affects the text in the results and conclusions sections on the proportion of products that exceed the UL levels for folate. The Tolerable Upper Intake Levels (ULs) for folate established by the Food and Nutrition Board (FNB) of the National Academies of Sciences, Engineering, and Medicine, applies to the synthetic form of folate obtained from supplements, fortified foods, or a combination of the two, ie, the amounts are in micrograms folic acid and not dietary folate equivalents (DFE). Thus, the UL range for pregnant and lactating women is 800-1,000 μg folic acid and not 480-600 μg folic acid as reported in the paper. Using the corrected values, the percentage of prescription prenatal supplements that were at or exceed the 1,000 μg UL amount is 99% and the percentage of nonprescription prenatal supplements that were at or exceed the 1,000 μg UL amount is 16%. The authors regret this error.
